Type of Incident: Death of an inmate or CCAP probationer/parolee due to unknown causes			
Location of Incident:	Cell - 2B		
Gang Related:	No	Confidential:	No
PREA:	No		
Description of Incident:			
<p>On February 5, 2022 at approximately 9:40am, I Lt. J. Samaniego, along with Capt. T. Russell responded to housing unit 2B at the request of Sgt. J. Nettles. Upon arriving we were informed that Inmate Charles Givens #1440676 was un-responsive. I went to Inmate Givens' cell, #19, and saw him lying face up on his bed with R/N Pauley and LPN Hale checking Inmate Givens for vitals. R/N Pauley informed me that Givens had a "Do not resuscitate" order, therefore no CPR was initiated. I asked Sgt. A. Kelly to bring me a camera so that I could begin documentation. Sgt. Kelly arrived with the camera and I began to photograph Inmate Givens at approximately 9:45am. I took 9 photos at various angles. I then requested T/X Officer G. Plummer to bring some restraints for transport. Officer Plummer returned with restraints and myself and Sgt. Nettles placed restraints on both wrist and ankles at approximately 9:55am. EMS also arrived at this time. After placing restraints on Inmate Givens, I assisted in loading Inmate Givens on the gurney. EMS then departed the housing unit. I then returned to the Shift Commanders Office and placed the photos onto a disc. One disc for Virginia State Police, and one for the Institutional Investigator. At 11:13am Special Agent H. Seagle of the Virginia State Police arrived. I turned over a copy of the photo disc to Agent Seagle and escorted him to housing unit 2B Cell #19, at which time he photographed Inmate Givens' cell. We then returned to the shift commander's office. I notified OLU at approximately 10:55am, speaking with Lt. L. Moldanado.</p>
